Your message, on the car local families already trust.

Care For A Ride has provided door-through-door transportation for seniors in Edmonton and the surrounding area since 2009. Our cars spend every weekday in front of seniors and their families — at family homes, senior residences, lodges and clinics. One advertising space on the back of a car puts your name in front of those same people, all day, every day.

- **Seen close to 14,000 times a day**— every car, every weekday, across Edmonton and the surrounding area.
- **Your spot on the back of the car**— seen by seniors and their families all day, every weekday — monthly, or up to a full year.
- **The right audience**— seniors and the adult children who help them choose the businesses they rely on.
- **A trusted local name**— family-owned since 2009, out in the community every weekday.
